why does capitalism fail us richard d wolff walks readers through this pressing question in a brilliant takedown of an economic system that benefits the few at the great expense of the many understanding capitalism explores the different definitions of what capitalism is and is not and dissolves the many myths that wolff argues are designed to confuse and disorient us wolff doesn't simply identify the crises and harms manufactured by capitalism he details a path forward by outlining alternative economic models that combat the exploitation and oppression inherent in capitalism capitalism oftentimes feels as permanent as the sky above understanding capitalism shows that our current economic system is only as strong as the ordinary people who enable its existence and that capitalism's demise requires an organized collective effort by those who can identify its vulnerabilities and limitations but also understand that another world is indeed possible

understanding capitalism third edition is an economics textbook offering an introduction to political economy with extensive attention to the exercise of power in society and the historical evolution of economic institutions

chapter 1 the weight of decision unraveling human nature and the price we pay for choice this chapter delves into the intrinsic nature of human decision making exploring how choices shape our lives and the inherent costs associated with them it examines the psychological and emotional burdens that accompany decision making emphasizing that every choice carries a weight that influences our overall well being and societal dynamics chapter 2 navigating the balance understanding profit loss and the economic fabric of society here the discussion shifts to the foundational concepts of profit and loss within an economic framework the chapter illustrates how these elements are critical in shaping the economic landscape affecting everything from individual businesses to broader societal structures it highlights the importance of understanding these concepts to navigate the complexities of modern economies chapter 3 the mechanics of production understanding the role of division of labor in economic efficiency this chapter focuses on the division of labor as a cornerstone of economic efficiency it explains how specialization enhances productivity by allowing individuals to focus on specific tasks

leading to greater output and innovation the mechanics behind this process are analyzed to showcase its significance in both historical and contemporary contexts chapter 4 harnessing efficiency an in depth analysis of economies of scale and scope an exploration of economies of scale and scope reveals how businesses can optimize production processes to reduce costs and increase efficiency this chapter discusses various strategies companies employ to achieve these economies illustrating their impact on competitive advantage and market dynamics chapter 5 navigating global markets the role of trade and comparative advantage in economic growth in this chapter the focus is on global trade and its vital role in fostering economic growth it introduces the concept of comparative advantage explaining how countries can benefit from specializing in goods they produce most efficiently the implications for international relations and economic policy are also considered chapter 6 harnessing innovation the role of technology in resource management this chapter highlights the transformative power of technology in resource management it discusses how innovation drives efficiency in various sectors enabling better allocation and utilization of resources the relationship between technological advancement and sustainable development is examined emphasizing its importance for future economic stability chapter 7 the interplay of prosperity morality and freedom a triad for a just society the final chapter presents a philosophical exploration of prosperity morality and freedom as interconnected pillars for a just society it argues that true economic success is not merely measured by wealth but also by ethical considerations and individual freedoms the chapter advocates for a balanced approach to governance that promotes both economic growth and moral responsibility overall these chapters collectively provide a comprehensive examination of key economic principles while intertwining human behavior societal values and technological advancements to present a holistic view of modern economics

the book addresses three broad areas of economic research the working of free markets the role of financial institutions and the making of economic policy the hope is that by understanding what makes the various economic players behave as they

do we may be better able to anticipate what they are likely to do next back cover

the sage handbook of decolonial theory is a groundbreaking transdisciplinary resource that expands the epistemological and geographical horizons of decolonial thought this handbook prioritizes the global south fostering south north and south south inter epistemic dialogues and situating decolonial thought in sites of struggle it builds on decolonial thought and praxis from latin america and the caribbean africa asia and palestine among other regions and countries addressing the erasure of knowledge production from the global south in dominant academic spaces this handbook brings together decolonial scholars and activist intellectuals from the global south and engages with politically committed scholars in the global north it emphasizes the geopolitics and ethics of knowledge production and the importance of situating one's work in historically excluded regions and communities organized into five parts the handbook includes conceptual essays and empirical studies on decolonial thought and praxis it covers a range of topics from de coloniality geopolitics and transdisciplinarity to decolonial feminisms gender and sexuality studies and racial capitalism the chapters convey a sense of urgency and a committed political voice demonstrating how decolonial theory can interrogate and intervene in the modern colonial racial capitalist heteropatriarchal world the sage handbook of decolonial theory is not just for academics it is written for anyone interested in radical thought and praxis it recognizes decolonial theory as a plural and dynamic field concerned with power hierarchies historiography and epistemological critiques of eurocentrism ultimately it teaches us how to think with and act alongside struggles for liberation part i key debates in decolonial theory part ii geopolitics and geographies part iii transdisciplinarity part iv feminisms genders

sexualities part v racial capitalism

this book develops a psychoanalytic theory of political correctness and the pristine self which is defined as a self touched by nothing but love it explores the damage that political correctness can do to social order applications include the breakdown of social capital the financial crisis and occupy wall street long an issue for conservatives alarm over political correctness has now spread to the liberal side of the political spectrum as schwartz argues all have reason to be concerned the psychology that underlies political correctness has the potential to be extremely destructive to social organization on every level schwartz discusses the primitive roots of political correctness and through the use of case studies shows its capacity for ruination the book focuses on a transformation in the idea of the self and specifically the rise of the pristine self the problem is that in truth the world does not love us this puts the pristine self at war with objective reality

much ink has been spilled in attempts to prove that humans are only animals and are like other species only aggressive marx distinguishes both class and cooperative relations as inorganic humans create their subjectivity through their mutual social production they build upon their previous forms of social production and with capitalism become not only an opposition of classes but have the capacity for urban individualism and cooperation dialectics of class struggle examines the historical development of classes from ancient times to present it analyses the development of ancient slavery into feudalism and the latter into capitalism it focuses on the laws and limits of capitalist development the contradictions inherent in the capitalist state revolutions in the twentieth century and the possibilities for human freedom that they revealed it concludes with an examination of class struggles in the global economy and shows the human deprivations as well as the human possibilities

his monograph on the concept of capitalism is the intellectual core of a larger work entitled capitalism its origins and evolution as ta system of governance due for publication november 2009 the purpose of this monograph is to put forth an original concept of capitalism as a system of governance including a theory of how it functions

at any point in time and how it evolves through time in the larger book i present a theory of its origins and evolution and support this theory with a set of country case studies that span both time and geography it was in fact my experience in studying these case studies that led me to the concept presented here as well as to the theory of capitalism's origins and evolution in the larger book i build on the present work identifying and explaining capitalism as a system of governance for political entities such as nation states i then supplement these ideas with a description and explanation of three generic economic strategies taken together my studies of economic strategies and specific capitalist systems of governance are intended to enhance and enrich existing literature on varieties of capitalism

working alternatives explores economic life from a humanistic and multidisciplinary perspective with a particular eye on religion's implications in practices of work management supply production remuneration and exchange its contributors draw upon historical ethical business and theological conversations considering the sources of economic sustainability and justice the essays in this book from scholars of business religious ethics and history offer readers practical understanding and analytical leverage over these pressing issues modern catholic social teaching a 125 year old effort to apply christian thinking about the implications of faith for social political and economic circumstances provides the key springboard for these discussions contributors gerald j beyer alison collis greene kathleen holscher michael naughton michael pirson nicholas rademacher vincent stanley sandra sullivan dunbar kirsten swinth sandra waddock

this groundbreaking book now available in paperback for the first time looks at the theory and practice of learning and how universities can improve their quality and competence
